Paula and John - Paula, since you know when you want your contractor to be out there and you want to store the IDW on their property, it would probably be more efficient for you to speak with him. If you want me to work with him, I am fine with that also. We should start with our standard consent for access form. A copy is attached. Of course, since we only want to take samples from already established wells, we could modify the consent for access to cover just what we want to do.

CONSENT FOR
ACCESS TO PR...

Let me know what you think.

Richard -

I have authority to execute an access agreement. Let me know how you would like to proceed.

Tim

Tim - Attached is the access agreement that we could locate regarding the properties that EPA would like to access to take samples from wells MW-5 & MW-6.

We haven't found a fully executed copy. Do you still represent these owners?
